Convention Condemns Judge from Woods by Resolution.

Sr. Louis, Dec. 29. - The conference of the national committee of the People's party, with its invited friends, began yesterday at the Lindell hotel in this city, with an attendance of something over 100. The meeting was called to order by National Chalman Taubeneck, and immediately proceeded to discuss the advisability of holding sessions in secret. The debate developed something of a tangle, out of which the gathering pulled cussion, by resolving itself into an in-formal conference, with Mr. Taubeneck in the chair, the committee proper being declared adjourned un-til 2 p. m.

At the afternoon session the national executive committee having retired for the purpose of consultation, the conference proceeded after naming a committee on order of business, in-formally to listen to addresses by J. S. Coxey upon his non-interest bearing bond plan; Delegates Howard, Manning and Adams upon the recent election in Alabama, and others upon the general purposes of the conference. Delegate Adams in his closing sentences, created considerable excitement by stating that though the Populists of Alabama were long sufnot stand by much longer and see their rights taken away.

at this point presented a resolution, alopted by it, to the effect that it deemed it inexpedi at for the conference to adopt an address direct to the such form as seemed best to them, to the public; also that National Chairman Taubeneck had better not

remain in the chair. A report upon the rules and order of business was presented providing a regular form of proceedure in consonance with the resolution of the expentive committee. After some debate both reports were accepted and Park of Toxas as secretary and as administered by his parents.

### TRADE SITUATION.

The Holiday Business Did Not Come Up to Expectations.

New York, Dec. 29.-R. G. Dun & Cos.', Weekly Review of . Trade says: Commercial farlures in 1894 already reported number 14.293 against 15,243 last year, with liabilities of \$163,238,-404 against \$346,779,889 last year. Next week the final report for 1894 will probably include about 400 more failures, with liabilities of about 84,000,000. From these accounts banks, bankers, financial and trans-

porting companies are excluded.
Holiday trade has scarcely met expectations. Purchases have been numerous, but smaller than usual in amount and more confined to needful articles, thus anticipating ordinary trade. The volume of business represented by clearing house exchanges is 7.7 per cent larger than last year, but 21.8 per cent less than the year before, and the daily average for November has been 7.1 per cent more than last year, but 25.2 less than the year before.
